Theme: The importance of kindness, inclusion, and being a good friend.

In our classroom and school, everyone deserves to feel safe, welcome, and included. One of the best ways we can help make that happen is by showing kindness and being a good friend to others. Kindness can be as simple as a smile, a helping hand, or including someone in a game. When we include others — especially someone who might feel left out — we help them feel like they belong.

Being a good friend means listening, sharing, standing up for others, and accepting people for who they are. When we practice kindness and inclusion every day, we help create a school where everyone feels happy to be themselves and excited to learn and grow together.

AES FAMILY AND FRIENDS
